Paul Prentice wins snowmobiles on water race

HALIBURTON — More than 500 people turned out on a beautiful sunny afternoon to watch the second annual Snowmobiles on Water Races held on Sunday. The races are sponsored by The Kinsmen Club of Haliburton and had a total purse of \$500. Paul Prentice of Minden, riding a machine bought for salvage from an insurance company and rebuilt, was the winner of this year's event, making it across 3,000 feet of Head Lake. Paul won first prize, \$300 for his efforts, averaging 65 mph during the crossing. Kim Hamilton of Minden placed second in the

race, also making it to the end of the course using the Prentice machine. Paul took two runs at the course, the second time he tried to make it all the way across the lake and back without touching ground. He did make it across but had to go up on shore, turn around and then make it all the way back to the starting point. There were four machines entered including Paul's and that of Pat Kennedy, driven by Kim Emmerson and two machines from Snow City Rupp in Scarborough.

Ag Program Report Another Successful Year

The Junior Agriculturalist Program 1980 is into its final stages and it's been quite a success. The program, sponsored by the Ontario Ministry of Agriculture and Food through the provincial government's Experience '80 Program, has been running eight consecutive years giving youth from Ontario's urban areas the opportunity to gain practical farm experience.

The summer has passed quickly for the 22 Jr. Ag.'s in the Central Ontario Region. They have had the opportunity to learn about farming from first hand experience and develop personally by working with people and taking on responsibilities and challenges.

The host farmers, too, have benefited from the program by having extra help for the busy summer months and working with enthusiastic and hard working students.

I would like to thank all that participated in the program this year. Meeting and working with you has been very rewarding and I've learned a great deal.

For those interested in participating next year, I urge you to apply early. Applications will be available to the farmers at the Ontario Ministry of Agriculture and Food office in your county and Junior Agriculturalist applications can be obtained through the guidance office of your school.

Gov't coming to grips with acid rain, sign memorandum

The Canadian and United States governments signed a memorandum of intent last week to battle the effects of acid rain.

The memorandum was signed by officials from both sides of the border on Tuesday, August 12th, in Washington, D.C. It has a similar format to the treaty signed between the two countries to clean up the Great Lakes a few years ago.

Carlo Marcantolio, senior advisor of policy analysis for Environment Canada said last week, the meeting between the two countries was intended to develop an agreement on trans-boundary air-pollution, particularly acid rain.

He added that there will be four working groups composed of Americans and Canadians at federal, provincial and state levels. The groups will deal specifically with the subjects of impact assessment, model development, strategy development and imple-

mentation and legal institutional arrangements.

Mr. Marcantolio also pointed out that smelters are the main cause of sulphur emission in Canada, which ultimately results in acid rain. Power generation plants are the chief villain in the US, and could become even worse offenders if the country increases its consumption of coal for energy.

The four groups are to submit interim reports by January of next year with a more formal report following a year later.

The Environment Canada spokesman also indicated that it is important that the situation not be aggravated before some answers to the problem are found.

When asked if the agreement between the two countries is legally binding, the spokesman said in terms of a legal obligation, it is more of a moral type of force. It is not actually an agreement yet.

The governments are in the process of exchanging names for the working groups. The four bodies of environmental specialists are expected to be operational within a month.

Teenage girls break and enter

MINDEN — OPP report that the cottage of David Atherton, on the Bethel Church Road here, was entered sometime between Aug. 10-11 and more than \$200 worth of antiques were stolen.

The report stated that the residence was entered through a window and the persons charged removed the property. Police apprehended three teenage girls from Don Mills, Ontario a short time later, loading the antiques into their vehicle.

Charged with the incident are Christne Becketl

Highland Grove man charged after assaulting mom, daughter

HIGHLAND GROVE — Paul Fenner Campbell, aged 24, has been charged with indecent assault on a female, and common assault, following the events of Tuesday evening, Aug. 5th.

The Bancroft OPP report that Campbell was an invited guest at a home in Bancroft, early Tuesday evening. There was beer being consumed and police report that Campbell "definitely had been drinking."

At around 7:15 pm, Campbell sexually assaulted the 4½ year old daughter of the people he was visiting. The mother called police, and tried to prevent him from leaving the house. While she was trying to stop Campbell he also assaulted her.

Following an investigation by Bancroft OPP,

Campbell was formally charged with the alledged indecent assault on a female and with common assault. He will appear in court today to answer to the charges.

In order to protect the young girl from further distress, police are not releasing her name, nor any other information by which she could be identified.

17, Selley Gill 17, and Sandra Milne 17 all from Don Mills.

On July 19 the cottage of Thomas Medhurst of Toronto was broken into and \$235 worth of property taken, including binoculars, radio, & two chainsaws. Located in Glamorgan Township, the goods have now being recovered. Charged is Thomas Carnochan 19, of Oshawa and a juvenile from Gooderham. PC Buchanan.

A breakin at Camp White Pine Aug. 13th netted thieves more than \$1300 worth of camera equipment. The property, belonging to Pamela Sisk of Kokomo, Indiana, was kept in a cabin and was missing Aug. 13. Investigation continues by PC Bob Wood.

A further breakin reported, occurred at the cottage of H. Gerlach on Gull Lake. More than \$3000 worth of goods was stolen including five gold rings with Greek coins, two gold medallions, three gold chains and a watch. Investigation continues with PC Bob Wood.

League champs drop play-off opener to West Guilford 4-1

MINDEN — Stanhope finished in last place in the Haliburton County Ladies League last week but they have their work cut out for them in the 'A' playoff semi-finals. Their backs are to the wall in the best two out of three series, after they dropped a 4-1 decision to West Guilford at Minden on Monday evening.

The Stanhope girls started their post season series with West Guilford on Monday, under the lights, against a fired up Guilford nine. Coaches G. Nicholls of Guilford and Ken Alger of Stanhope had their teams fired up for the opener, however Stanhope ran into a rash of walks in the last three innings and it ultimately cost them the game.

The game was tied 0-0 in a game that had everything for the softball fan, hits, super defence by both sides and fine pitching.

In the top of the fifth inning Guilford broke on top with two runs on a walk and two hits, giving them a 2-0 lead. Stanhope came back with a run in the bottom of the inning on three singles. Guilford added two more runs, one in each of the sixth and seventh innings.

The second game in the series goes tomorrow night (Thursday) in Haliburton commencing at 7:00.

"Who Will Take Grandma"

Who will take Grandma?
Who will it be?
All of us want her - I'm sure
you'll agree.
Let's call a meeting - let's
gather the clan.
Let's get it settled as soon as
we can,
In such a big family there's
certainly one
Willing to give her a place in
the sun.
Strange how we thought that
she'd never wear out,
But see how she walks - it's
arthritis, no doubt -
Her eyesight is faded - her
memory's dim
She's apt to insist on the
silliest whim,
When people get older they
become such a care
She must have a home - but
the question is where?
Remember the days when
she used to be spry?
Baked her own cookies and
made her own pie,
Helped us with lessons and
tended our seams -

Kissed away troubles and
mended our dreams?
Wonderful Grandma, we all
loved her so.
Isn't it dreadful she's no
place to go.
One little corner is all she
would need,
A shoulder to cry on - her
Bible to read -
A chair by the window with
sun coming through,
Some pretty spring flowers
still covered with dew -
Who'll warm her with love so
she won't mind the cold?
Oh, who will take Grand-
mother now that she's old?
What: Nobody wants her?
Oh, yes, there is ONE
Willing to give her a place in
the sun,
Where she won't have to
worry or wonder or doubt -
And she won't be OUR
problem to bother about -
Pretty soon now, God will
give her a bed -
But who'll dry our tears
when dear Grandma is
dead?

Rockhounds invade Wilberforce

WILBERFORCE — The third annual "Showcase of Canadian Rockhounding" kept rock and mineral hunters happy here last weekend.

Rockhunters from all over Ontario and the northern United States converged on this small hamlet for what has been billed by local organizers as the Showcase of Canadian Rockhounding.

Rockhounding in case you are not aware, is the hobby of collecting, and classifying, minerals and gemstones. It's a fast growing recreation for a large number of both Canadians and Americans and this past weekend's showcase, the third annual event, drew hundreds to the Lloyd Watson Memorial Centre and the Monmouth Arena for the three days of swapping, selling, buying and just plain looking and admiring the beautiful rocks and gems.

Featured were displays of minerals and gems put on by dealers in the rockhound field, and by local hobbyists. The three day event was topped off Saturday evening with a dance at the community centre.

DO IT NOW

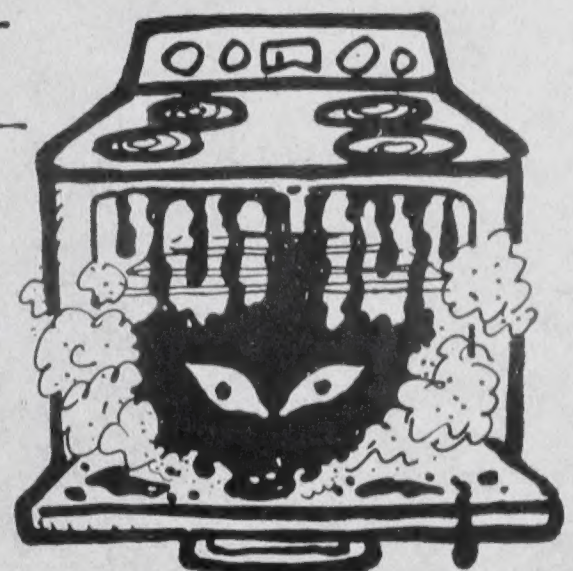

Look who's stealing your electricity.

A stove exhaust fan filter clogged with grease and grime makes the fan motor work longer and harder to draw air through. Just soaking the filter in mild soap or detergent will fix this energy waster.

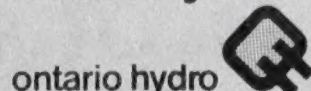

Use Energy Wisely

Tune-up, clean up. It's simple. Appliances that are clean and well-cared for last longer and use less electricity. Over the long run, you can save money on appliance replacement. And of course, the less energy you waste, the more dollars you save.

Grease and burnt-on food really reduce your oven's efficiency. A clean oven works better and uses less electricity. Opening the oven door too often also wastes valuable heat. If you have a window in the oven door, keeping it see-through clean can clear up the problem.

Don't waste your energy.

Woodville captures Ladies tournament

HALIBURTON — The duo of Nelda Cully, left and Sheila Elstone, right, gave the Bad News Bears the experience they needed to put together a very competitive team in this past weekends Haliburton County Ladies tournament. The Bears dropped a heart-

breaker in their opener 16-15 to Haliburton, then edged last year's finalists Little Britain in the semi-finals 22-20 to advance to the consolation championship, where they just ran out of gas against Kinmount, losing 17-11.

HALIBURTON — The third annual Haliburton County Ladies Softball tournament was held on the weekend under beautiful weather conditions, with some extremely fine softball being played by the ladies, to the delight of the hundreds that turned out for the two-day tournament.

On Saturday, six games were played. Game 1 saw Haliburton edge the last minute tournament entry, The Bad News Bears from the Haliburton league, 16-15. The Bears were formed on very short notice Saturday morning when a team from Bancroft pulled out. In the second game the West Guilford girls downed Kinmount 16-10. Game three saw Lindsay edge 1979 defending champion Little Britain 7-5 and in the fourth game Woodville trounced Coby 13-1.

In the semi-finals on Saturday, Lindsay eliminated Haliburton from further play with a 19-10 victory to advance to the championship game. In the final game Saturday evening the Bad News Bears were just that, knocking off a very tough and highly favoured Little Britain squad 22-20.

The tournament resumed on Sunday with two more semi-final matches. Woodville advanced to the championship game against Lindsay with a 9-2 deci-

sion over West Guilford while Coboconk made it past Kinmount 13-6 to the consolation final.

In the consolation game, Coby won the Ken Alger Construction trophy by defeating the Bears 17-11. The championship game and B&H Construction trophy went to Woodville as they trimmed a very good Lindsay squad 8-5.

The tournament committee would like to thank their supporters and officials as well as the merchants and tournament workers for making this the third annual tournament such a success.

Bill Coneybeare wins \$1,000.00 Figure Skating Club draw

During the Haliburton County Fair, the Minden Figure Skating Club held their draw for the \$1,000 bill. This year's lucky winner was Bill Coneybeare of Minden. Second place prize of \$500 went to Feida Bosna of Mississauga, the \$250 third prize was won by Jeff Campbell, Minden and the \$50 fourth prize was won by Marg Bibby also of Minden.

The festivities get underway on Friday evening with a wine and cheese party at Bonnieview sponsored by Andres Wines. Your hosts for the entire three days will be Keith and Donna Stephenson, owners of the golf club.

The tournament this year is set for Friday, Saturday and Sunday, Sept. 26, 27 and 28 and is sponsored by Molson's and Andres. The trophies are all hand made, designed and crafted by Haliburton's own Carol McLean.

First prize in the elimination draw is a hand-made quilt (valued at over \$500) plus five consolation prizes. The three day package is open to anyone. For more information call Keith Stephenson at 457-2233.

Stanhope

HALLS LAKE — The Stanhope Swim program under the direction of co-ordinator Gaylene Johnson, is nearing another very successful completion.

The program had two parts this summer, one in July, the other August and both were full with youngsters taking the course.

The August course, which is held at the new beach on Halls Lake had 25 youngsters enrolled. Ms. Johnson and her staff of Peggy Johnson, Carolyn Neslon and Mike Pearson have been very busy teaching the basics of swimming from pre-beginners to intermediates as well as life-saving and basic first aid.

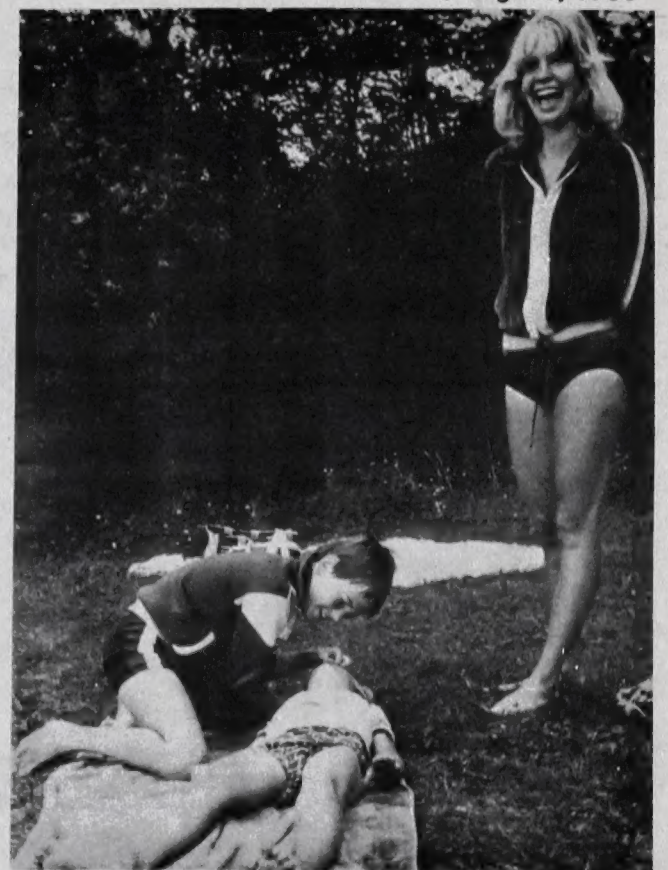

In the above photos, Craig Tilley throws a heavy line for practising reaching a drowning person. Below he helps Ernie Meggison to shore after reaching him with the life saving buoy.

On the right we have staff member Carolyn Nelson teaching artificial respiration to David Bar-eich and Craig Tilley.

The August course ends on Friday and Gaylene Johnson is hoping to continue with the program next summer in Stanhope and also hopes to add a small craft to the agenda for 1981.

Woman is attacked by Loon

by Lillian Pettit

A local woman who lives in the Lutterworth Estates near Minden, and who says she is "58 and some months," has a looney tale to tell.

"About seven miles this side of Blind River," she says, "Elizabeth Wohnfurter and Lillian Pettit noticed a large, dark bird flopping about near the edge of the road. We stopped to investigate. Black and white checkerboard back, shiny black neck with white collar, short legs set far back on its body? A loon, surely.

Coaxing and cajoling, Elizabeth tried to get it out of the path of the traffic. But it insisted on floundering out into the middle of the road, so I approached from the other side and tried to shoo it back. Did the creature appreciate our concern? Was it grateful? Did it struggle back to the safety of the

ditch? Not at all! Like a barnyard goose defending her young, it stretched out its neck, arched its powerful wings and beat the air with them. Then, with a resounding 'squawk,' it launched an attack. Remembering how much my new trifocals had cost, and fearing a stab in the eye by that long, black, pointed beak, I tried to run away. But with the scent of victory in whatever birds smell with, it continued to do battle. It grabbed my pant leg. I tripped and crashed to the highway. Fortunately, I sustained nothing worse than a fractured wrist, and was able to escape the oncoming traffic.

The loon was not so lucky. In spite of our misunderstanding, I hope it is now in a paradise of uncontaminated lakes, filled with delectable fish, in a land where there are no motor cars or other threats to its safety, should it have occasion to leave home again.

Ontario's safari surprise

ROCKTON, Ont. — Even though there's no jungle, the movie "Born Free" could easily have been filmed right here — in "deepest, darkest Ontario."

The setting is the great African Lion Safari, a 500-acre, drive-through wildlife park 20 miles northwest of the steel city of Hamilton. Here the big cats roam at will without having to stalk a zebra or anything else for their dinner.

But the zebras are here and so are the lightning-swift elands, along with tigers and cheetahs, giraffes, rare white rhinos, elephants,

and dozens of other creatures from the exotic animal kingdom including, of course, troops of frolicking baboons.

And, if that isn't enough, park operators have introduced North American wildlife species such as bison, deer, elk and black bear—all sharing the same uncaged freedom as the big cats.

If you're a true lover of nature, then this is your goal. Unlike most zoos, here you are surrounded with animals roaming in their own designated reserves.

And, since the monkeys seem to be the most gregar-

ious of the animals here, they appear to have the run of the park. First, you'll see just one or two, but soon an army of them appears, and some may wind up perched on the roof of your car.

If you stick rigidly to an earlier briefing and reminder signs not to feed the animals and keep car windows closed at all times, a visit to African Lion Safari is the next best thing to a trip to East Africa for getting a close look at big game.

While many visitors elect to ride in their own cars, most prefer an air-conditioned bus whose driver knows the origin, characteristics, along with the care and feeding of every animal in sight.

The park also operates a

London-style, double-decker bus in which you might find an 18-foot tall giraffe pressing his inquisitive nose at your window.

Among the rarer animals you'll spot on the trail are such new acquisitions as the Tibetan yak, Japanese sitka deer, Bactrian camel and Indian black buck antelope.

Since it opened in 1969, close to five million visitors from across Canada, the U.S. and abroad have come to enjoy the park's thousand or more animals and birds.

The Birds of Prey Centre, a new attraction with a wide variety of eagles, falcons, hawks and vultures, holds three shows daily. The star is a bullet-headed peregrine falcon, which zaps its "quar-

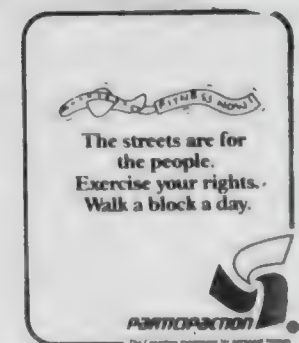

ry" in 175 mph dives. Anyone who isn't sharply attentive might miss the whole act.

The Safari park, just off Hwy. 8 between Hamilton and Kitchener, is open daily from 10 a.m. to 5:30 p.m. during July and August, with shorter hours for the rest of the year.

Even on the coldest days of winter, it's possible to watch lions, tigers and other warm-blooded animals cooling off in the snow.

The park offers campgrounds with complete facilities for campers with tents, tent trailers or motor homes. There's also a licensed outdoor "Safari Oasis" for food and drink.

Admission to the African

Lion Safari is \$4 for adults, \$2 for children (ages 3-12 inclusive) and \$3 for youths (13-17) and senior citizens.

TYME HORSESHOE DAYS

GOODERHAM — Besides horseshoe pitchers from all over the province, the Gooderham Old Tyme Horseshoe Days had activities for every age. More than 500 people streamed into the park under clear blue skies to watch not only the top pitchers but also to take part in the mini midway, amateur contest, square dancing, games and listen to the music of Spectrum Music Country on centre stage. Sunday, the Glamorgan Fire Dept. held its second annual demolition derby which thrilled the hundreds that turned out to watch and many people also took advantage of helicopter rides to get a better look at the area.

Happy 65th birthday . . . do you know what you're entitled to?

Every Canadian or landed immigrant who reaches the age of 65 gets a special birthday present from the federal government -- the first Old Age Security pension cheque.

From that point on the benefits continue, every month, for the rest of their lives.

But, according to officials from Health and Welfare Canada, the benefits under the OAS system are not automatic. And certainly there are some basic requirements that must be met.

First, you must be a legal resident in Canada immediately prior to the approval of your application -- a citizen or landed immigrant.

Then there is the residence requirement. The basic requirement is that you are a resident in Canada for a minimum of 10 years prior to reaching age 65.

Whether you get the full or partial pension is very much dependent on whether you fall under the new or old legislation. Under the old legislation, you receive a full pension after 10 or more years of residence. Under the new

portion of the pension earned at 1/40th of the maximum for every year of residence.

You must apply for benefits prior to reaching the magic age of 65 -- and you should do it at least six months before turning that age. Applying any later could result in late approval and delay in payment.

Applying is relatively simple. You fill out an application form available at any post office or Income Security Programs office in your area. You will need proper documentation such as birth or baptismal certificates, passport and the like, at the time of application.

All documents must be originals. Copies simply will not do.

If you are experiencing any problems the best thing to do is get in touch with any Income Security Programs office nearest to where you live, for assistance.

If you are in receipt of OAS pension benefits, you may be entitled to receive Guaranteed Income Supplement as well. This benefit is given to recipients of Old Age Security Pension who have little or no other income.

There is also a benefit paid to spouses of pensioners who are between the age of 60 and 65, if the total income of both falls under a certain level. Generally, a spouse qualifies if the other mate is a recipient of both the Old Age Security and Guaranteed Income Supplement benefits.

Here are some questions asked most often about the Old Age Security benefits:

Will I continue to receive my OAS if I leave Canada?

• The benefits continue only if you have lived in Canada for at least 20 years after your 18th birthday. They will be mailed to you anywhere in the world. If you have not lived in Canada for at least that period, payment is made only for the month of departure and an additional six months.

If I do leave Canada, will the Guaranteed Income Supplement or Spouse's Allowance continue?

• No. Both these benefits will be paid for the month of departure and an additional six months -- then payment will terminate.

How about if I move from one province to another?

What should I do if I don't get my pension cheque on time?

• Notify your nearest Income Security Programs office if the cheque is not delivered after the end of the month.

Can I have my OAS cheque sent directly to my bank for deposit?

• Yes. However, you must make the arrangements with the bank and give details to your Income Security office.

Do I have the right to appeal if I feel there has been some injustice done to me?

• Certainly. If you're not satisfied, after receiving an explanation of the decision made in your case, you have the right to appeal that decision. Contact your nearest Income Security office for instructions on how to proceed.

Food additive dictionary is now available

Recent findings that more than 90 per cent of Canadians need to know more about food additives has resulted in a federal government department decision to provide a special "dictionary" on additives to the public.

Officials from Health and Welfare Canada's Health Protection Branch, the people who established the findings in the first place, have issued the so-called dictionary and are making it available to citizens on a first come, first serve basis.

The pocket-sized dictionary deals with all additives permitted in food in Canada. It gives the names of additives and a brief description of their purpose in our food.

A Health and Welfare Canada survey showed that 87 per cent of Canadians were concerned about the effect of additives on their health, 60 per cent said they would be willing to pay more for additive-free food.
